

michael havey essential business pdf

Business Process Modeling Language (BPML) is an XML-based language for business process modeling. It was maintained by the Business Process Management Initiative (BPMI) until June 2005 when BPMI and OMG (Object Management Group) announced the merger of their respective Business Process Management (BPM) activities to form the Business Modeling and Integration Domain Task Force (BMI DTF).

Business Process Modeling Language - Wikipedia

A workflow consists of an orchestrated and repeatable pattern of business activity enabled by the systematic organization of resources into processes that transform materials, provide services, or process information. It can be depicted as a sequence of operations, the work of a person or group, the work of an organization of staff, or one or more simple or complex mechanisms.
