Assessing Data Quality for Healthcare Systems Data Used in Clinical Research Table of Contents
Objective..... 2

Assessing Data Quality for Healthcare Systems Data Used in

Data quality refers to the condition of a set of values of qualitative or quantitative variables. There are many definitions of data quality but data is generally considered high quality if it is "fit for [its] intended uses in operations, decision making and planning". Alternatively, data is deemed of high quality if it correctly represents the real-world construct to which it refers.
